ABOUT ME ...

I'm a Junior/Mid level Unity developer, graduated from Epitech school (European Institute of technology).

My strength are programming, project design and english language.

I've been working on various projects:

- VR apps, video games (Unity3D, C++ OpenGL, SDL, etc.),
Windows software, mobile apps (Android native).

My school curriculum also included several modules to expand my knowledge on others subject such as computer law or marketing.

About my personality, people describes me as someone motivated, a hard worker with a constant rigor.

HOBBIES

Video games

Unity 3D development,
Global game jam.

Travel

Japan, Germany,
Thailand, Laos, Vietnam,
South Korea, Netherlands,
Italy, Spain.

Sports

Basket Ball, gym,
swimming, trekking, etc.

Music

Music production (DAW).
